

Create your own litter monster!

Collect recycled materials such as cardboard, plastic bottles, and paper to create your very own litter monster. You will need scissors, glue, sticky tape and any other craft supplies that will bring your creation to life!

Use the space below to sketch out your litter monster. Label each part of your monster, so you know which recycled materials to use when you start building.

Note: For safety and hygiene reasons, do not use actual litter and avoid any food packaging that may contain traces of allergens such as nuts.
