

## Pledge creation

Create a personal pledge to help reduce single-use plastics and make a positive impact on the environment.

### Steps to create your pledge

**1. Write your pledge:**

Include the following in your pledge:

Personal commitment: For example, 'I pledge ... to avoid single-use plastics by using reusable bags, bottles, and containers.'

Specific action: Choose an action you will take to work towards your commitment, such as 'I will ... bring my own water bottle to school every day' or 'I will pack my lunch in reusable containers.'

**2. Share your pledge:**

Once you've completed your pledge, share it with your class or in small groups. This helps everyone stay accountable and can inspire others to make similar commitments.

**3. Create a pledge wall:**

Set up a pledge wall in the classroom where you can post your pledges. This will serve as a visual reminder of everyone's commitment to reducing single-use plastics.
